The screenshot shows the website of the Faculty of Mechanical Engineering and Shipbuilding (FSB) at the University of Zagreb. The page is titled "Pristup bazama podataka" (Database Access) and provides instructions on how to access databases. It mentions that access is possible in one of two ways: via IP address or through a proxy server. The proxy server is identified as the National and University Library in Zagreb, which provides a portal for electronic sources for the Croatian academic and scientific community. It notes that for accessing databases from computers not in the Faculty's IP domain, the proxy server should be used, and users should log in using their electronic identity system (AAI@EduHr). A Shibboleth option is also mentioned for some databases. The URL [https://www.fsb.unizg.hr/?knjiznica&pristup\\_bazama\\_ukratko](https://www.fsb.unizg.hr/?knjiznica&pristup_bazama_ukratko) is provided at the bottom.
